Auto Tools

The full line of Soft yet Strong Pry Tools

- ▶ Use the Bojo Auto Tools on automotive interior parts where maintaining a good appearance is important.
- ▶ All Bojo Auto Tools are made tough enough to pry, but not hard enough to damage.
- ▶ Who knows? You may find that the Bojo Auto Tools can have many other different uses. They can help you make various jobs easier, faster, and without the damage that metal tools can cause. They can very well be the tools your toolbox is missing.
- ▶ Greatly reduces the likelihood of scratching your vehicle.
- ▶ Do you need a different tip design? Call Bojo Inc. and we can make it a reality.

Plastic General Wedge Tool

General narrow point for reaching in narrow spaces.

Plastic Sticker/Gasket Scaper Tool

Wide tip, for use where a wide area is desired with a 'soft' touch.

Plastic Pry Bar Tool

The forked tip. The original for removing door panels and plastic grommets.

Plastic Wedge Puller Tool

The hook and pry tip. Specially designed for hooking and pulling parts apart.
